

TARIFF TO SAVE AERO INDUSTRY

Senate Will Act for Protection of American Manufacturers.

A threatened invasion of obsolete British and French aircraft into the American market is to be stopped by the levy of a stiff ad valorem tax, according to plans made yesterday by the Senate Finance Committee.

The tax is to be based on the original cost of the planes and is to be incorporated in the dyestuffs bill now before the committee.

The facts laid before the committee by Senator New of Indiana, showed that England and France were preparing to dispose of thousands of planes at job-lot prices to concerns which already have made plans to invade the American market.

It was also shown to the committee by Senator New that an advertising agency is negotiating with the French government for a campaign to cover the proposed sale in this country of thousands of French planes. Senator New said the British selling company has planned to run special trains throughout America advertising the planes. In addition to the 10,000 planes to be disposed of in this manner, there are said to be 200,000 extra motors.

Members of the committee decided that the tariff will be high enough to keep out of the United States the planes which the British and French interests are planning to send over for sale.

OPPOSES R. R. RATES BASED ON ACCOUNTS

John E. Benton, representing the National Association of State Utility Commissioners, yesterday appeared at a public hearing before the I. C. C. to urge the commission not to base rate making valuation of railroad properties entirely upon the investment accounts submitted by the railroads. Railroad managers urged that the valuation be based entirely upon these accounts.

The valuation to be made by the I. C. C. as a basis for new rates to be set up under the Esch-Cummings transportation act. A high valuation means a high rate.

Benton argued that the investment accounts shown on the books of the carriers do not represent an accurate valuation.

LAUNDRY MEN NAME WAGE DELEGATES

Laundry owners of the District yesterday submitted their list of representatives for the conference to fix a minimum wage for women laundry employees. The list includes P. P. Avaler, Dr. John W. Lowe, P. W. MacKenzie, George F. Page, Louis Levy and H. C. Kall.

The employees at a final meeting tomorrow night will elect their representatives.

The conference will be formed at a meeting at the board of Saturday morning when it will select from the lists three employers and three employees and will name three representatives of the District to represent the public.

URGES INVESTIGATION OF GASOLINE PRICES

Investigation of the high price of gasoline was demanded in a resolution introduced in the House yesterday by Representative Dyer, Missouri. The probe would be conducted by the Attorney General and would also go into oil prices.

Four increases in the price of gasoline have been made during the last thirty days and huge profits are being made by the oil interests, Dyer charged.

British Predict Steady Rise in Value of Pound

London, March 23.—A steady, consistent rise in the value of the pound was predicted this afternoon by officials of the British treasury. The expected rise, it was said, will be due to the rapid increase of British exports, present conditions being practically on a normal pre-war basis.

Latest official figures show that Britain imported \$200,000,000 more than was exported during the last month, but "invisible" exports make up the difference.

"I expect to see the pound sterling back near its normal value before many months," said one treasury official.
